- |   |  |
|---|--|
| <b>Step 1: Power Up →</b>               | Power up the PinPoint 3 system.  |
| <b>Step 2: Open App →</b>               | Open the Capstan App on your phone.  |
| <b>Step 3: Select PinPoint →</b>        | From the main screen, tap <i>PinPoint</i> .  |
| <b>Step 4: Navigate to Update Tab →</b> | Go to the <i>Update</i> tab (bottom right icon).   |
| <b>Step 5: Connect to Hub →</b>         | Tap the Capstan logo (upper right) and connect to Hub.   |
| <b>Step 6: Open File Browser →</b>      | Tap the green folder icon.   |
| <b>Step 7: Check for Updates →</b>      | Tap <i>Check Files on Server</i> ; latest files auto-download.                                   |
| <b>Step 8: Select File →</b>            | Tap software to download to device   |
| <b>Step 9: Send to Controller →</b>     | Tap file again → choose <i>Send to Controller</i> .  |
| <b>Step 10: Upload →</b>                | Wait for transfer (≈10 min iPhone / ≈6 min Android).   |
| <b>Step 11: Power Cycle →</b>           | Power off tractor, trip PinPoint breaker, wait 30s, power back on. Software loads automatically. |
| <b>Step 12: Verify Revision →</b>       | From Home, select Heartbeat icon → confirm correct software revision is displayed.               |
| <b>Step 13: Continue →</b>              | Proceed with standard setup procedures.  |
